

Health & Social Care
Information Centre

Delivering the NIB Framework for Action

Peter Counter
CTO

September 2015

Health and Social Care Information Centre

Three Core Functions:

- **Operate the key data and information systems** in support of the NHS, social care services and the wider health and social care sector
- **Develop the next generation** of national data and information systems
- **Analyse, publish and disseminate data** and information to professionals, regulators, commissioners and researchers

Health and Social Care Information Centre

520,000

users of our LSP clinical record systems

40,000

patient referrals a day through eReferrals

About
600,000

NHS staff using NHSmail on a daily basis

3.4 million

women called for cervical cancer screening using our systems - about 1300 lives saved and 4000 cancers prevented

43 million

hits per month on NHS Choices

700,000

electronic prescriptions per day

7.2 billion

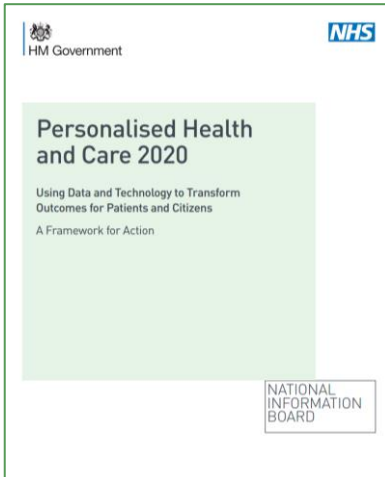

in GP payments calculated and processed annually

Context for the NIB Framework

- NHS England's Five Year Forward View dealing with a £20-30bn funding shortfall
- Post National Programme and 2012 Health & Care Act
- Department of Health and local authorities implementing the 2014 Care Act
- Changes in the way people use technology
- Health and wellbeing changes in society
- Organisational changes across health, public health and social care

NIB Workstreams

NATIONAL
INFORMATION
BOARD

- 1.1 Providing patients and the public with digital access to the health and care information and transactions
- 1.2 Providing citizens with access to an accredited set of NHS and social care “apps”
- 2.1 Setting the commissioning and regulatory roadmap for implementing of digital data standards by 2018/2020
- 2.2 Roadmap for comprehensive data on outcomes and value of service now
- 3 Make the quality of care transparent
- 4 Build and sustain public trust
- 5 Bring forward life saving treatments and support innovation and growth
- 6 Support care professionals to make the best use of data and technology
- 7 Assure best value for taxpayers and open up existing infrastructure
- 8 Technical Platform and Information Standards
